VINYLUX™ WEEKLY POLISH

WHAT IT IS
Self-adhering color coat.

WHAT IT DOES
- Provides week-long wear, when used with Vinylux Top Coat.
- Dramatically improves adhesion to the natural nail for week-long wear.
- Lasts up to 4-times longer than traditional nail polishes.
- Includes adhesion promoters that completely eliminate the need for base coat.
- Matches CND Shellac™ colors.

WHY YOU NEED IT
- Revolutionary polish that provides week-long wear.
- For clients who can't wear nail polish because it chips in one or two days.
- Ideal color option over enhancements because it can be removed easily between appointments with the acetone allowing the wearer the option of changing her color between services.
- For touch-ups and toes for CND Shellac wearers.

DIRECTIONS FOR USE
- Must be used as a system: Color = adhesion + Top Coat = Time-enhanced durability.
- Perform P.E.P to ensure the nail is thoroughly cleansed and prepared.
- Apply two thin coats of Vinylux Weekly Polish.
- Finish with one coat of Vinylux Weekly Top Coat.

CND offers comprehensive education opportunities. Check the education section of cnd.com for a course near you.

CREATIVE SUGGESTIONS
- Retail matching color to all CND Shellac clients for touch-ups and toes.
- Stay on top of seasonal trends with fashion-forward color options.
- Visit cnd.com for nail style inspiration and current trends.
