CND-N-140

Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS & 2001/58 EC Standards MSDS Revision: 1.5 MSDS Revision Date: 09/17/2009 1. PRODUCT IDENTIFICATION 1.1 Product Name: SHELLAC UV COLOR COAT 1.2 Chemical Name Gel Lacquer 1.3 Synonyms: Shellac UV Color Coat 1.4 SHELLAC UV Color Coat 1.5 Product Use COSMETIC USE ONLY 1.6 Distributor's Name CREATIVE NAIL DESIGN, INC. 1.7 Distributor's Address 1125 JOSHUA WAY, VISTA, CA USA, 92081 1.8 **Emergency Phone:** CHEMTREC: +1 (800) 424-9300 / +1 (703) 527-3887 1.9 (800) 833-NAIL (6245), (760) 599-2900 2. HAZARD IDENTIFICATION Hazard Identification: This product is classified as a HAZARDOUS SUBSTANCE and as DANGEROUS GOODS according to the classification criteria of NOHSC:1088 (2004) and ADG Code (Australia). Flammable liquid. Routes of Entry: 2.2 Inhalation: Absorption: YES Inaestion: YES 2.3 Effects of Exposure: INGESTION: If product is swallowed, may cause nausea, vomiting and/or diarrhea and central nervous system depression. EYES: Mildly to moderately irritating to the eyes. Symptoms of overexposure may include redness, itching, irritation and waterina. May be irritating to skin in some sensitive individuals, especially after prolonged and/or repeated contact. SKIN: INHALATION: Vapors of this product may be slightly irritating to the nose, throat and other tissues of the respiratory system. Symptoms of overexposure can include coughing, wheezing, nasal congestion, and difficulty breathing. Inhalation of vapors exceeding the levels listed in Section 3 (Composition & Ingredient Information) can cause central nervous system depression (e.g., drowsiness, dizziness, headaches, nausea). 2.4 Symptoms of Overexposure: EYES: Overexposure in eyes may cause redness, itching and watering. Symptoms of skin overexposure in some sensitive individuals may include redness, itching, and irritation of affected SKIN: areas. Acute Health Effects: 2.5 EYES: Mild to moderate irritation to eves near affected areas. SKIN: Mild to moderate irritation to skin near affected areas. INHALATION: High concentrations of vapors can cause drowsiness, dizziness, headaches and nausea. 2.6 Chronic Health Effects None known. 2.7 Target Organs Eyes, skin & respiratory system. NA = Not Available; ND = Not Determined; NE = Not Established; NF = Not Found; C = Ceiling Limit; See Section 16 for Additional Definitions of Terms Used. Note: All WHMIS required information is included. It is located in appropriate sections based on the ANSI Z400.1-2004 format.

Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS & 2001/58 EC Standards MSDS Revision: 1.4 MSDS Revision Date: 09/03/2009 6. ACCIDENTAL RELEASE MEASURES Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment. For small spills (e.g., ≤ 1 gallon (3.785 liters)) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows) and secure all sources of ignition. Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse. For spills ≥ 1 gallon (3.785 liters),, deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Use ONLY non-sparking tools for recovery and cleanup. Transfer liquid to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water. 7. HANDLING & STORAGE INFORMATION Avoid prolonged contact with the product. Avoid breathing vapors of this product. Use in a well-ventilated location (e.g., local exhaust ventilation, fans). Do not eat, drink or smoke while handling product. 7.2 Keep this material away from heat, sparks and open flame. Open containers slowly on a stable surface. Keep container closed tightly when not in use. Empty container may contain residual amounts of this product; therefore, empty containers should be handled with Store containers in a cool, dry location, away from direct sunlight, other light sources, or sources of intense heat. Store away from incompatible materials (see Section 10). 7.3 Special Precautions: Open containers slowly on a stable surface. Keep container tightly closed when not in use. Empty containers may contain residual amounts of this product; therefore, empty containers should be handled with care. 8. EXPOSURE CONTROLS & PERSONAL PROTECTION Ventilation & Engineering Controls: When working with large quantities of product, provide adequate ventilation (e.g., local exhaust ventilation, fans). Ensure that an eyewash station, sink or washbasin is available in case of exposure to eyes. 8.2 No special respiratory protection is required under typical circumstances of use or handling. If necessary, use only respiratory protection authorized per U.S. OSHA's requirement in 29 CFR §1910.134, or applicable U.S. state regulations, or the appropriate standards of Canada, its provinces, E.C. member states, or Australia. 8.3 None required under normal conditions of use. Avoid eye contact. May cause irritation in some sensitive individuals. When handling large quantities (e.g., ≥ 1 gallon (3.785 liters)), safety glasses with side shields should be used. 8.4 Hand Protection None required under normal conditions of use. May cause skin irritation in some sensitive individuals. When handling large quantities (e.g., ≥ 1 gallon (3.785 liters)), wear rubber or impervious plastic gloves. Body Protection: 1 HEALTH No apron required when handling small quantities. **FLAMMABILITY** 3 When handling large quantities (e.g., ≥ 1 gallon (3.785 liters)), eye wash stations and deluge showers should be available. Upon completion of work activities involving REACTIVITY 0 large quantities of this product, wash any exposed areas thoroughly with soap and water. PROTECTIVE EQUIPMENT Α

Prepared to OSHA, ACC, ANSI, NOHSC, WHMIS & 2001/58 EC Standards MSDS Revision: 1.4 MSDS Revision Date: 09/03/2009 9. PHYSICAL & CHEMICAL PROPERTIES Density 1.04-1.06 (H₂O = 1) 9.2 Boiling Point: 258.8 °F (126 °C) estimated based on Butyl Acetate 9.3 Melting Point: 9 4 Evaporation Rate: 0.3 (n-Butyl acetate = 1) 9.5 Vapor Pressure: NA 96 Molecular Weight: NA 9.7 Appearance & Color: Translucent to opaque viscous liquid in a variety of colors and shades with an ester-like odor. 9.8 Odor Threshold: 99 Solubility: Insoluble in water. 9.10 На NA 9.11 Viscosity 500-2500 cP 9.12 Other Information: VOC: 2.0-2.5 lb/gal 10. STABILITY & REACTIVITY 10.1 Stability: Stable under ambient conditions when stored properly (see Section 7, Storage and Handling). 10.2 If exposed to extremely high temperatures, the products of thermal decomposition may include irritating vapors and carbon oxide gases (e.g., CO, CO₂). Hazardous Polymerization: 10.3 Will not occur. 10.4 Conditions to Avoid: None reported. 10.5 Incompatible Substances This product is incompatible with strong oxidizers (e.g., peroxides, superoxides), strong acids (e.g., hydrochloric or muriatic acids), or strong bases (e.g., lye, potassium hydroxide). 11. TOXICOLOGICAL INFORMATION 11 1 This product has not been tested on animals to obtain toxicological data. There are toxicology data for the components of this product, which are found in the scientific literature. These data have not been presented in this document. 11 2 Acute Toxicity See section 2.5 11.3 Chronic Toxicity: See section 2.6 11.4 Suspected Carcinogen: Yes. This product may contain Isopropyl Alcohol, which is classified as a Group 3 carcinogen (not classifiable as a human carcinogen) by the IARC. 11.5 Reproductive Toxicity This product is not reported to produce reproductive toxicity in humans. Mutagenicity: This product is not reported to produce mutagenic effects in humans. Embryotoxicity This product is not reported to produce embryotoxic effects in humans. Teratogenicity This product is not reported to produce teratogenic effects in humans. Reproductive Toxicity: This product is not reported to produce reproductive effects in humans.

Prepa	ared to OSHA, ACC, ANSI, NOHSC, WHMIS & 2001/58 EC Standards MSDS Revision: 1.4 MSDS Revision Date: 09/03/2009
	11. TOXICOLOGICAL INFORMATION - continued
1.6	Irritancy of Product:
	See Section 2.3
1.7	Biological Exposure Indices:
	NE NE
11.8	Physician Recommendations:
	Treat symptomatically.
	12. ECOLOGICAL INFORMATION
12.1	Environmental Stability:
	The components of this product will slowly degrade over time into a variety of organic compounds. Specific environmental datavailable for the components of this product are as follows:
	Butyl Acetate: Koc = 1.82. Water solubility: 120 parts H ₂ O at 77 °F (25 °C). Bioconcentration Factor = 4-14. Bioconcentration is no anticipated to be significant. This compound can be removed from contaminated environments from volatilization, an biodegradation. This compound's half-life in water is 6.1 hours.
	Isopropyl Alcohol: Log K _{OW} = 0.05-0.14. Isopropyl alcohol occurs naturally; it is generated during microbial degradation of plant an animal wastes. When released on land or water, it is apt to volatilize and biodegrade. The estimated half-life in water is 5.4 days Isopropyl alcohol is not expected to bioconcentrate.
2.2	Effects on Plants & Animals:
	There are no specific data available for this product.
2.3	Effects on Aquatic Life:
	There are no specific data available for this product; however, very large releases of this product may be harmful or fatal to overexposed aquatic life.
	13. DISPOSAL CONSIDERATIONS
13.1	Waste Disposal: Waste disposal must be in accordance with appropriate Federal, state, and local regulations.
13.2	Special Considerations:
	U.S. EPA WASTE NUMBER: D001 (characteristic - ignitable)

15.7

U.S. State Regulatory Information:

Butyl Acetate and Isopropyl Alcohol, are covered under specific state criteria.

15. REGULATORY INFORMATION- continued

15.8 European Union 67/548/EEC and Australia NOHSC:2011 (2003) Requirements:

The primary components of this product are not listed in Annex I of EU Directive 67/548/EEC.

<u>Butyl Acetate</u>: Flammable (F). R: Flammable. S: 9-16-33 - Keep container in a well-ventilated place.

Keep away from sources of ignition - No smoking. Take precautionary measures against static

discharaes.

<u>Isopropanol</u>: Flammable (F). R: 11-36/37 – Highly flammable. Irritating to eyes and respiratory system. S: 2-7-16-24/25/26 – Keep out of the reach of children. Keep container tightly closed. Avoid contact with skin and eyes. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

HAZCHEM CODE: 3YE .
Poisons Schedule Number: ND

16. OTHER INFORMATION

16.1 Other Information:

WARNING FLAMMABLE. Precisely follow directions and MSDS (available through your supplier) or use. **Store in a cool place. Avoid all skin contact.** If redness or other signs of adverse reaction occur, discontinue use immediately. **Keep tightly sealed**. Keep out of sunlight. **Keep out of reach of children.** For Professional use only.

16.2 Terms & Definitions:

Please see last page of this MSDS.

16.3 Disclaimer

This Material Safety Data Sheet is offered pursuant to OSHA's Hazard Communication Standard, 29 CFR §1910.1200. Other government regulations must be reviewed for applicability to this product. To the best of ShipMate's & Creative Nail Design's knowledge, the information contained herein is reliable and accurate as of this date; however, accuracy, suitability or completeness are not guaranteed and no warranties of any type, either expressed or implied, are provided. The information contained herein relates only to the specific product(s). If this product(s) is combined with other materials, all component properties must be considered. Data may be changed from time to time. Be sure to consult the latest edition.
