

JimmyGel Extensions using Forms

Aim of the treatment: Provide clients with a long-lasting nail extensions using JimmyGel and forms to extend the nails, complete with a beautiful decoration of their choice.

Treatment Time: 60 minutes

Preparation: Prepare work area with an **LEpro Big Wipe** and all essential tools and products required for service to be performed. Have client make color choice as you prepare the nails for product application.

PRODUCTS REQUIRED

Favorite LE Nail File
LEpro Cleanser
LEpro Cleansing Wipes
LEpro Cuticle Pusher
LE Forms
JimmyGel
LE Color/Glitter/ButterCream or P+
LE Top Coat of choice
LEpro Cuticle Oil
Optional:

Step-By-Step Procedure

STEP 1: Follow **Light Elegance Prep Protocol**, to prepare the nails for product application.

STEP 2: Position and apply LE Forms to all 10 nails.

STEP 3: Apply Tack to the natural nails, cure for 30 seconds in the **LEDdot** lamp.

STEP 4: Apply a Slip Layer of **JimmyGel** to 5 nails, on one hand, pulling some product onto the form to create the extension. Once the Slip layer is applied, using the **Tailing Technique**, place additional **JimmyGel** in the apex and stress area of the nails, **JimmyGel** will self-level to a smooth application. Cure for 1 minute in **LEDdot** lamp. Repeat on 5 nails of second hand.

STEP 5: Repeat step 4, to continue to build structure through the apex and stress area of the nails. A third layer can be added if further structure is needed.

Step-By-Step Procedure- Continued

STEP 6: Cleanse the nails with **LEpro Cleanser**. Refine the nail shape using a **Lexy File** or an **LE Perfect File**. Finish filing the surface of the nails can be done with the 180 grit file, to prepare the nail surface for decoration.

STEP 7: After filing is complete, use the **LE Duster brush**, remove dust from the fingers and using **LEpro Cleanser**, thoroughly clean each nail plate, removing all dust.

If no color application is desired- move to applying Top Coat of choice.

STEP 8: Apply any P+ Color or Glitter, LE ButterCream or Color or Glitter gel product of the client's choice, cure in **LEDdot** lamp for 30 seconds.

STEP 9: If desired, apply a second coat of chosen decoration gel and cure in LEDdot lamp for 30 seconds.

STEP 10: Apply a thin application of desired Top Coat* and cure for 1 minute in the LEDdot lamp. *If P+ color or glitter was used, finish the nails using P+ Top Coat.

STEP 11: Using **LEpro Cleanser** and a **Lint Free Wipe**, thoroughly clean the entire nail plate removing the inhibition layer.

STEP 12: Using **LE File** of choice, gently file along bottom side of free edges, to insure a smooth finish around the nails.

STEP 13: Massage 1 drop of **LEpro Cuticle Oil** into each cuticle.

Optional Add-on:

Apply a nickel size amount of **Q&Lu Bamboo Polish** and exfoliate hands.

Wrap hands with hot towels to enhance the Spa Service, then wipe to remove the mask. **Q&Lu Bamboo Polish** can also be removed by rinsing in warm water.

Apply a nickel size amount of **Q&Lu Bamboo Lotion**. Massage hands and arms.

You can extend massage by adding 1 pump of **Q&Lu Spa Oil** to the **Q&Lu Bamboo Lotion**.

Recommended Retail Products

LEpro Cuticle Oil- keeps nails and cuticles moisturized

Q&Lu Bamboo Polish-exfoliates and hydrates skin.

Q&Lu Bamboo Lotion- hydrates and moisturizes skin.

Q&Lu Spa Oil- great after bath or shower to soften skin.

TIPS:

To ensure proper product adhesion, the nail plate must be cleansed prior to nail prep.

The use of Tack is optional, it will increase adhesion and the time it takes to soak off.

Creating the desired shape of the extension on the form will reduce filing needed and save time.

If additional structure and strength is desired, Step 4 can be repeated as needed, to build longer extensions.

When using P+ Color or Glitter gels, be sure to finish nails using P+ Top Coat.
